Supervisor's Report Thursday October 31, 1946 A. Greenfield II

Example

Attendance: Reynolds Replaced Stacy 5 - 6:30. Speed Johnson Missed his sports show. There was no replacement and no sports. Also no phone call. This is a bad example. Damon tells me it cost us $3.00.

Announcing: Excellent.

Monitoring: Good.

Music: We had a little trouble locating the music lists at 4:30. This was probably due to their unorthodox form which made them difficult to recognize to say nothing of being readable. According to schedule Scovell and Neufeld are responsible for this. I hardly think it is asking too much to have them typed. Crayon just wont show through carbon. Symphony Hall O.K.

Sports: See above - attendance.

News: So far so good. Still waiting on Campus News to comple this section. O.K. But its is sure dull copy.

Business: Nothing to report.

Public Relations: there seems to have been some confusion regarding the time of tomorrow night's Dartmouth broadcast - the plug said 8:45 and there is a new show slated to begin at 8:30 (½ hour) tomorrow night. On the basis of other information it was changed to 9:45.

Continuity: Found Wednesday's Trib commercial in the book. Changed it for today's. Otherwise O.K.

Technical: The Hull remote went over O.K.

Yawn Club: Fine.

Not too bad a night, so far. O.K. the rest of the way too.

Respectfully submitted,

A Greenfield II

P.S. I would strongly advise that the station subscribe to Billboard. I tried to buy one when the mixup occurred at 4:30 and couldn't. As it was I think we have been running 2 or 3 weeks behind on occasion with Hit Parade.
